

May 16, 1961

Mr. G. M. Todd, General Chairman
American Numismatic Association
Post Office Box 234
Atlanta 1, Georgia

Dear Mr. Todd:

In connection with your telephone call of yesterday and your desire to have a Georgia Coinage exhibit in connection with the 1961 A.N.A. convention, we discussed our furnishing to you the Georgia gold put out by C. Bechtler, being the \$2.50 and \$5 gold pieces which are specifically marked Georgia gold. In addition I called your attention to a \$10 note of the Pigeon Roost Mining Company of Lumpkin County, Georgia, dated September 6, 1836. These three items can be furnished by us for such an exhibit if they cannot readily be obtained elsewhere.

You indicated you could find a Templeton Reid's piece or so through other sources.

A copy of the letter being written to Vernon Sheldon is enclosed.

We are hopeful that the details can be worked out.

Sincerely yours,

ERIC P. NEWMAN NUMISMATIC

Mr. T. M. Todd
American Numismatic Association
Box 234
Atlanta 1, Georgia

Dear Mr. Todd:

Thank you for your letter of May 15, 1961. The matter of the display is under way with Mr. Sheldon.

As to the insurance, we believe it will be essential to carry insurance from the time the coins leave the safe deposit box, in St. Louis, until they return, and to have them specifically mentioned in the policy and a copy of the policy turned over to us. The insurance should be in the name of this society and Eric P. Newman, as their interests may appear. The Confederate Half Dollar should be insured for \$100,000.00 and the Confederate Cent for \$1500.00. There have been just too many coin robberies for the insurance protection to be on a limited and general coverage basis. Would it be possible for you to turn this insurance matter over to the party who is handling it and let us work it out directly with that party?

If a satisfactory case can be produced for about \$60.00 there will be no objection to our paying for this item.

Thank you for your cooperation.

Sincerely yours,

ERIC P. NEWMAN NUMISMATIC
